

PERSONALISED SEW-IN LABELS

Having a personalised sew-in label in your tea towel or other textile product adds a touch of professionalism and also helps to promote your brand. Our labels are printed using the latest digital technology on pure white satin polyester. They are available in 3 sizes and can be folded or single. Folded labels give twice the print area, so you could have your name and logo on the front and washing symbols on the reverse.

All our labels are sewn in free of charge to any product we make for you. We can also supply you with your labels on a roll so you can sew them into other products you make yourself or made by other manufacturers.
